Dr. J. T. Eayrs
Department of Anatomy
The University
Birmingham, England

Dear Dr. Eayrs:

I would be grateful for a reprint of your article
"The anatomical and physiological effects of
prenatally administered somatotrophin on cerebral
development in rats", which appeared in the Journal
of Endocrinology, Volume 22.

I would also be most appreciative of receiving any
other recent papers on the effects of hormones on
cerebral development that have resulted from your
studies.

Sincerely,

Eayrs
